RELIABLE FURS at Generous Reductions from Prices Already Well Below the Standard of Good Value

THE EXTENT of price reductions are always governed by margin of profit. Don't be misled into the buying of your Furs by half-price and 50-per-cent off statements. The value of rour purchase or investment must be judged by style and quality. Furs are like diamonds, and should be bought with the same care and with due consideration to the vendor's reliableness. At the same time make a careful analysis of the Fur-—note the color and markings, length and glossiness of fur, softness of the peltry, and very style and workmanship of the article. It's on this assis we invite comparison on our Fur Values.
